2003 ASSEMBLY JOINT RESOLUTION

Ins.
A

1 **Relating to:** designating May 24th of every year as Maintenance Technician Day in

2 Wisconsin.

3 Whereas, ; now, therefore, be it

4 ***Resolved by the assembly, the senate concurring, That*** the legislature of
5 the state of Wisconsin proclaims May 24th of every year as Maintenance Technician
6 Day in Wisconsin.

7 (END)

*Draft a
Resolution*

November 27, 2002

Representative David Ward
P.O. Box 8953
Madison, WI 53703

Mr. Ward,

My name is Joe Escobar and I am the editor of *Aircraft Maintenance Technology*, a Fort Atkinson, WI-based magazine that goes out to over 40,000 aircraft maintenance professionals throughout the world. I am an FAA certified A&P mechanic with Inspection Authorization. As discussed with one of your staff members a few weeks back, I am writing you to ask for your support in sponsoring a bill in the Wisconsin Legislature that would proclaim May 24, 2003 and every May 24 thereafter as Aircraft Maintenance Technician day in the State of Wisconsin. In relation to this request, please consider the following:

A
~~While~~ Aircraft maintenance technicians are all too often the unsung heroes whose achievements and importance are overlooked. Without the dedicated work of aircraft maintenance professionals, the safe air travel that we take for granted would not be possible. *and*

whereas,
Although just about every child knows who Orville and Wilbur Wright were, most have never heard of Charles Edward Taylor, the unsung hero who was the first aircraft mechanic. On April 30, 1903, at the Wright Brother's Bicycle Shop in Dayton, Ohio, Charles Edward Taylor began working on the first engine built for Orville and Wilbur Wright's airplane named "The Flyer." Mr. Taylor pioneered uncharted theories of engine design by using only a lathe and drill press to construct a ~~four~~ *four*-cylinder piston engine weighing 179 pounds and producing 12 horsepower in just ~~six~~ *46* weeks. *and*

am dash
whereas,
On the morning of December 17, 1903, at the base of Kill Devil Hills, south of the village of Kitty Hawk, North Carolina, the Wright brothers made aviation history by successfully flying the first powered airplane. This achievement would not have been possible if it were not for Charles Edward Taylor, the first aircraft mechanic in powered flight — the man responsible for building and maintaining the first aircraft engines. *and*

whereas,
Wisconsin has deep roots in aviation. It is home *to* Aircraft Maintenance Technology magazine — the industry's leading maintenance publication and the only maintenance magazine that is approved by the Federal Aviation Administration for recurrency training for mechanics. It is also home to the Experimental Aircraft Association ~~which~~ *to*, which hosts the largest aircraft fly-in in the United States each summer. This event is supported and attended by aircraft mechanics, pilots, and enthusiasts from throughout the world and brings in millions of dollars to Wisconsin's

✓
economy each year. Wisconsin is also home to Milwaukee-based Midwest Express Airlines and Appleton-based regional airline Wisconsin Airlines.

Resolutions have already been passed in California and North Carolina proclaiming May 24 of each year, Charles Edward Taylor's birthday, as Aircraft Maintenance Technician Day. Similar efforts are underway throughout the country with the goal of having all 50 states proclaiming May 24 as Aircraft Maintenance Technician day by next May.

As we approach the year-long celebration next year of 100 years of powered flight, we can ensure that Charles Edward Taylor and those that are currently aircraft mechanics no longer go unnoticed. Wisconsin can show its support of aircraft maintenance professionals by passing this resolution.

Respectfully,

Joe Escobar
FAA A&P/IA
Editor, *Aircraft Maintenance Technology*

Subject: Corrections on LRB 1394/1, relating to Maintenance Technican Day

Hi Peter,

I received the draft for this resolution (LRB 1394/1), thank you! I looked it over and also forwarded it to the constituent and we caught a couple of things. Could you please change the following?

Page One:

Line 1: insert "Aircraft" prior to "Maintenance"

Line 6: insert an "and" after the semicolon

Page Two:

Line 2: Could you capitalize the "b" in "brothers"?

Line 9: "approve" should include a "d" at the end ("approved")

Line 10: "recurency" should include two r's in the middle ("recurrency")

Line 18: insert "Aircraft" prior to "Maintenance"

Thanks for your help. Please do not hesitate to contact me if you have any questions.

Sincerely,

Char

| Subject: Bill Draft for Rep. Ward

Hi Peter,

I was told by the receptionist that I should talk to you regarding drafting legislation designating May 24th of every year as Maintenance Technician Day in Wisconsin. This request is per a constituent in Fort Atkinson. I'll photocopy the letter for you and send it over. Feel free to call me if you have any questions.

Thank you for your help!

Sincerely,

Char Rodriguez
